

West Creek Greenway – Coventry to Broadview

CUY West Creek Greenway Trail (PID 118940)

3/14/2024 – Cleveland Metroparks, in partnership with West Creek Conservancy and the City of Parma, and in coordination with the Ohio Department of Transportation (ODOT) is designing an All Purpose Trail (APT) extending from the eastern terminus of Coventry Drive in Parma to Broadview Road (SR 176). The trail will be 10 feet-wide, approximately 0.41 miles long and includes a 140-foot bridge spanning West Creek and two boardwalks to preserve wetlands. The trail will provide a connection to the City of Seven Hills’ nearby APT via a crossing at Broadview Road.

All work will take place within West Creek Reservation and the public right-of-way. Construction is anticipated to begin in early 2025 and will last approximately 12 months, and no road closures or detours are anticipated.

The new trail will be located in West Creek Reservation, which is a recognized recreational property and affords protection from adverse impacts associated with federal-aid transportation projects. While this project will have a *de minimis* impact, Cleveland Metroparks is seeking any comments you may have regarding the proposed project. Project-related issues the public may wish to comment on include, but are not limited to, the effect of the project on local residents, air quality, economic impacts, etc.

We sincerely appreciate your cooperation and assistance so this worthwhile project can be completed at the earliest possible date. **Please submit comments regarding the social, environmental, and economic impacts of the proposed project via mail, phone, email, or on our project webpage (www.clevelandmetroparks.com/WestCreekGreenway) by 4/15/2024.**
