PATHWAY OF PROGRESS

The Brotherhood of Locomotive Engineers Co-operative National Bank is one of the milestones in the history of Cleveland's great pageant of progress.

Its organization is a new era in the development of modern banking.

It is the only NATIONAL BANK in the world owned and operated by Labor. It is the only NATIONAL BANK in the United States to share the profits with the Savings Depositors.

The resources have passed \$8,000,000 with an average increase of

A MILLION A MONTH

The policy of this bank is very ably expressed in the words of one of the directors: "The Brotherhood Bank is a strong, powerful bank, conducting a wise, conservative, but progressive business. Its aim is to accommodate all classes of business and all kinds of people; to accommodate and do business with the small depositor as well as with the rich."

OFFICERS

Warren S. Stone, Pres. Wm. P. Prenter, Cashier
W. F. McCaleb, Vice Pres. & Manager.
Wm. P. Prenter, Cashier.
S. R. Stone, Ass't Cashier.
H. R. Reid, Ass't Cashier
E. E. Hauptert, Ass't Cashier

THE new bank and office building of the Brotherhood of Locomotive Engineers Co-operative National Bank as proposed at the recent convention of the Brotherhood of Locomotive Engineers.

The new bank is steadily moving along the line of great plans, and the erection of this new twenty-story structure calls attention to the special program by labor's exclusive National Bank.
